June 26, 2020

Board of Trustees, Lemont Fire Protection District 15900 New Avenue Lemont, IL 60439

Honorable Trustees:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Lemont Fire Protection District (LFPD) for the year ended December 31, 2019.

This CAFR consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

To provide a reasonable basis for making its representations, management has established a comprehensive internal control framework. This framework is designed to provide reasonable assurance that assets are safeguarded against loss, from unauthorized use or disposition and that account transactions are executed in accordance with management's authorization and properly recorded so that the financial statements can be prepared in conformity with generally accepted accounting principles. The objective of the internal control framework is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

State statutes require an annual audit of the financial records and transactions of LFPD by independent certified public accountants selected by the Board of Trustees. The Board of Trustees selected the accounting firm of Karrison, LLC. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the LFPD's basic financial statements for the fiscal year ended December 31, 2019, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The District had to implement Governmental Accounting Standards Board Statement 68, Accounting and Financial Reporting for Pensions in 2015. The government-wide statements reflected, for the first time, the total actuarial pension obligation of the District. The implementation of Statement 68 had a significant impact on the financial statements. As did the implementation of Governmental Accounting Standards Board Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pension in 2018. It is very important to note that the District's ending fund balance (excluding the Pension Fund, IMRF Plan and other postemployment benefits obligations) as of December 31, 2019 was \$2,631,618, the Firefighter's Pension Fund had a year-end net position of \$2,023,625.

Generally accepted accounting principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). The MD&A immediately follows the independent auditor's report. This transmittal letter is designed to complement the MD&A and should be read in conjunction with it.

DISTRICT PROFILE

The Lemont Fire Protection District (LFPD) was organized in 1960 under the general laws of the State of Illinois providing for the organization and operation of the Fire Protection Districts and is now operating under the provisions of the Fire Protection District Act of the State of Illinois, as amended (70 ILCS 705/0.01 *et seq*). LFPD is located in southwest suburban Cook, DuPage and Will Counties, approximately 28 miles west of the City of Chicago.

The District operates under an elected Board of Trustees form of government. The five-member Board of Trustees constitutes the primary policy making body of the District. The Board of Trustees are responsible for, among other things, determining District policies, adopting the annual budget, levying taxes, adopting ordinances/resolutions, and authorizing the payment of bills. The Fire Chief is appointed by the Board of Trustees and is responsible for the daily operations and management of the District.

The District provides a full range of services to the residents of the Village of Lemont, the unincorporated areas of Lemont Township, areas of the Village of Woodridge and the Village of Palos Park. These services include fire suppression services, emergency medical services, underwater rescue and recovery, hazardous material response, cause and origin investigation response, tactical rescue response, rescue task force response, fire prevention and public education.

The District operates four fire stations which were strategically built to minimize response times based on projected populations. The District also operates its own vehicle maintenance facility within Fire Station 1.

The District's reporting entity includes general District governmental and all related organizations for which the District exercises financial accountability as defined by the Governmental Accounting Standards Board. Accordingly, the District includes financial results of the Lemont Fire Protection District Firefighter's Pension Fund and other postemployment benefit obligations in these financial statements.

The President, Board of Trustees and staff of the District are intent on maintaining the District's financial condition, while continuing to provide the highest level of public services to its residents.

FINANCIAL INFORMATION

The annual budget serves as the District's foundation for financial planning and control. All programs of the District are required to submit their budget requests to the Fire Chief by August 1st of each year. The budget requests act as a starting point for the development of a proposed budget. After reviewing the budget requests with each program liaison, the Fire Chief presents the proposed budget to the Board of Trustees. A copy of the proposed budget is also available to the public at this time. The Board of Trustees is required to hold a public hearing on the proposed budget and to adopt the final budget no later than December 31st of each year, the close of the District's fiscal year.

The budget is prepared by fund, but the format of the budget provides for a program budget with line item supplemental backup.

Budget to actual comparisons are provided in this report for the General, Ambulance and Major Special Revenue Funds. The General and Ambulance Funds comparison is presented on pages 55 - 63 as part of the basic financial statements. For the Non-Major Special Revenue Funds, these comparisons are presented in the governmental fund subsection of this report beginning on page 66.

ECONOMIC CONDITION AND OUTLOOK

The District is located in Cook, DuPage and Will Counties approximately 28 miles southwest of the City of Chicago. The District covers 40 square miles and has a population of approximately 17,100. The District's daytime population is higher (40,000) due to the large industrial area located in Woodridge. Potential for future population growth is expected with the housing market and commercial growth seen over the last fiscal year. New construction in the Village of Lemont is still continuing. Several new housing developments have begun the planning process, and the Village of Lemont is looking forward to adding several new residential homes. In calendar year 2019, the Village of Lemont saw an additional 110 new single-family homes and processed 1064 building permits. However, due to the ongoing pandemic starting in March 2020 and the stay at home order by the Governor through May 2020 our ambulance call volume, the second largest revenue stream for the District, has decreased by 15%.

The District's 2017 tax year EAV was \$1,289,563,505. The 2018 tax year, the District's EAV was \$1,279,770,354, a 0.76% decrease. The effects of the pandemic to assessed valuations have not yet been determined, but we are estimating a decrease in the annual assessed valuations. We estimate a slow recovery in our annual assessed valuation due to current economic conditions. We are expecting to see between 3% and 5% of the levy in uncollected property taxes based on counties allowing late payments without penalties. However, due to the Property Tax Extension Limitation Law (PTELL) or "tax cap", low CPI environment, fears based on current pandemic, late or decreased tax collections and the possibility of a property tax freeze from the state legislature, for the next two to four years, tax revenues, the largest revenue stream for the District, are projected to be relatively flat.

According to the U.S. Census Bureau, between 2014 and 2018 the total housing units for the District amounted to 5993 with the median value of a single family home at \$360,200.00. The

average household contained an average of 2.78 individuals. This contributes to the District's strong demand for fire protection from well trained and strategically positioned firefighters and paramedics located throughout the District.

MAJOR INITIATIVES FOR 2019

The District continues to work within the scope of its projected revenue in maintaining services, per current levels, and contractual obligations.

The District staffs a minimum of three Engine/Ambulance jump companies and one Truck/Ambulance jump company daily. During 2019, District firefighters and paramedics responded to 4,027 calls, a 12% decrease over 2018. Approximately 66.58% of these calls were for emergency medical services. The number of emergency medical calls increased by 160 calls. Call volume to local assisted living facilities, nursing homes and rental units continued to increase in 2019. This trend is expected to continue.

District staff, under the direction of the Board of Trustees and the Fire Chief, have been involved in a variety of projects during 2019. A number of significant projects are discussed more thoroughly below.

- Purchased and placed in service a 2019 Lifeline Ambulance
- Created an Engine Committee to create the specifications for our Engine purchase in 2020.
- Held a Nationally recognized Pediatric Pig Lab 16 hour course at Station 1
- Provided Stop the Bleed Training for all Lemont Schools and Lemont Village Hall
- Continued focus on training and safety and operational efficiencies
- Continued increases to pension funding to meet actuarial requirements

MAJOR INITIATIVES FOR THE FUTURE

Major initiatives for 2020 include:

- Certify a Firefighter in Canine and Handler with FEMA Urban Search and Rescue Task force
- Increase District marketing using social media platforms to promote fire district activities and provide informational updates

- Continued emphasis on firefighter health, safety and fitness with daily physical fitness recommendation outlined within the daily work schedule for shift personnel
- Review current capital improvement plan which considers future needs for fleet replacement and update the plan to a 5 year plan to be reviewed every year during the budget process
- Continued increases to pension funding to meet actuarial requirements
- Aggressive risk-management based training (including enhanced probationary firefighter training) as well as safety and educational program delivery
- Utilize International Association of Fire Chiefs' (IAFC) accreditation process with the Center for Public Safety Excellence.

ACKNOWLEDGEMENTS AND AWARDS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Lemont Fire Protection District for it comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2018. This was the first year that the Fire District has received this prestigious award. In order to be awarded this certificate, a government must publish an easily readable and efficiently organized CAFR. This report satisfied both GAAP and the applicable legal requirements. This certificate is valid for a period of one year only. We believe our current report meets the program's requirements and we are submitting it to GFOA to determine its eligibility for this year's award.

The timely preparation of the CAFR was made possible by the efficient and dedicated services of the entire staff. Appreciation is expressed to the District's employees throughout the organization especially those employees who were instrumental in the successful completion of this report. We sincerely appreciate and acknowledge the support and direction provided by our auditor, Lou Karrison, CPA, LLC, in preparing the District's CAFR. We would also like to express our appreciation to the Board of Trustees for their leadership and support in planning and conducting the financial operations of the District in a responsible and progressive manner.

Respectfully submitted,

Frank Jareczek

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Trustees Lemont Fire Protection District

We have audited accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lemont Fire Protection District as of and for the year ended December 31, 2019, which collectively comprise the Lemont Fire Protection District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Basic Financial Statements

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We did not audit the financial statements of the Lemont Firefighters' Pension Fund, which represent 100% of the assets, liabilities, net position, revenues, and expenses of the fiduciary funds. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Firefighter's Pension Fund, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend upon the auditor's judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to error or fraud. In making those risk assessments, the auditor considers internal control relevant to the Lemont Fire Protection District's preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Lemont Fire Protection District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

Auditor's Responsibility (Continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Lemont Fire Protection District as of December 31, 2019 and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that certain information listed as required supplementary information in the accompanying table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Lemont Fire Protection District's basic financial statements. The combining and individual fund financial statements and the financial information listed as schedules and supplemental data in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements, the schedules, and supplemental data are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the

information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections were not audited by us and we express no opinion thereon.

Darien, Illinois June 26, 2020

Karrien LLC

Management's Discussion and Analysis For the Year Ended December 31, 2019

Introduction

As management of the Lemont Fire Protection District (LFPD), we offer readers of our financial statements this narrative overview and analysis of the District's financial activities for the fiscal year ended December 31, 2019. We encourage readers to consider the information presented here in conjunction with the District's financial statements.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in its Statement No. 34 "Basic Financial Statements and Management's Discussion and Analysis, for State and Local Governments" issued June 1999. Certain comparative information between the current and prior year is required to be presented in the MD&A.

Financial Highlights

The liabilities and deferred inflows of resources of the LFPD exceeded its assets and deferred outflows of resources by \$(8,248,544) at the end of the current fiscal year due to the implementation of GASB 68 which brings the full liability of the firefighter's pension fund of \$(11,564,517) and the implementation of GASB 75 which brings the full liability of other postemployment benefits (OPEB) of \$(1,324,145) onto the statement of net position. Net position consisted of net investment in capital assets, in the amount of \$6,111,513; amounts restricted for special revenue funds and other special purposes totaling \$3,024,615; and unrestricted net position of \$(17,384,672).

The District's total net position decreased by \$(279,768) resulting in ending net position of \$(8,248,544). The decrease is attributable to increases in revenue of \$531,181 and an increase in expenses of \$918,843 over the prior year.

Property tax revenues were \$10,253,770, compared to the prior year of \$9,891,443.

At December 31, 2019, the District's governmental funds reported combined ending fund balances of \$2,631,618, an increase of \$318,499 from the prior year. Of this amount the general and ambulance funds had a combined ending fund balance of \$1,466,469, tort liability fund had an ending balance of \$(254,658), special revenue funds had an ending balance of \$71,046, capital projects fund had an ending fund balance of \$1,329,060, and the debt service fund had an ending fund balance of \$19,701.

At December 31, 2019, the Firefighters Pension Fund had a net position of \$35,807,760 with a funding ratio of 75.59%. Pension benefits/refunds paid in 2019 were \$1,030,387. IMRF plan had a net position of \$2,023,625 with a funding ratio of 108.28%.

The District's total long-term debt principal decreased by \$353,328 during the current fiscal year. The total debt outstanding (both principal and interest) decreased to \$0. The change can be attributed to a decrease in notes and capital loans per the District's amortization schedule.

Management's Discussion and Analysis For the Year Ended December 31, 2019

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of District finances, in a manner similar to a private-sector business and are reported using the accrual basis of accounting and economic resources measurement focus.

The *Statement of Net Position* presents information on all District assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, the increase or decrease in net position may serve as a useful indicator of whether or not the District's financial position is improving.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and unpaid obligations).

The government-wide financial statement of activities distinguishes District functions that are principally supported by taxes and program revenues (governmental activities). The governmental activities reflected the District's basic services including fire, ambulance and other administrative functions. Fiduciary activities such as employee pension plans are not included in the government-wide statements since these assets are not available to fund District programs.

The government –wide financial statements are presented on page 4-5 of this report.

Management's Discussion and Analysis For the Year Ended December 31, 2019

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other units of government, uses fund accounting to ensure compliance with finance-related legal requirements. All of the District's funds can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

The District maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance for the General Fund, Ambulance Fund, Tort Liability Fund, Capital Projects Fund and Non-major Special Revenue Funds. Data from the Special Revenue Funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and individual schedules elsewhere in the report.

The District adopts an annual appropriated budget for its funds. Budgetary comparison statements have been provided for the General and Ambulance Funds to demonstrate compliance with the Budget.

Basic governmental fund financial statements are presented on pages 6-9 of this report.

Fiduciary funds are used to account for resources held by a governmental unit, in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. The Fiduciary fund includes the pension trust fund.

Basic fiduciary fund financial statements are presented on pages 10-11 of this report.

Management's Discussion and Analysis For the Year Ended December 31, 2019

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements can be found on pages 12 - 44 of this report.

Other Information

In addition to these basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's revenues, expenditures, and changes in fund balance – budget and actual –for the General, Ambulance, and Tort Liability Funds. Disclosures regarding the pension benefits provided to LFPD's employees is also found in this section. This information can be found beginning on page 45 of this report.

Major funds are reported in the basic financial statements as discussed. Combining and/or individual statements and schedules are presented in a subsequent section of this report beginning on page 55 of this report.

Government-Wide Financial Analysis

Statement of Net Position may serve over time as a useful indicator of a government's financial position. The LFPD's net position totaled \$(8,248,544) at the end of the current fiscal year, a 3.51% increase over the fiscal year due to changes in pension liabilities and other postemployment benefits net liabilities. Following is a summary of the government-wide Statement of Net Position.

Statement of Net Position *Governmental Activities*

	2019	2018
Current and Other Assets	\$ 13,850,349	\$ 14,647,181
Capital Assets	6,111,513	6,295,799
Total Assets	19,961,862	20,942,980
Current and Other Liabilities	16,645,889	15,467,676
Net Pension Obligation	11,564,517	13,444,080
Total Liabilities	28,210,406	28,911,756
Net Position		
Invested in Capital Assets	6,111,513	5,942,474
Restricted Amounts	3,024,615	2,342,858
Unrestricted Amounts	(17,384,672)	(16,254,108)
	\$ (8,248,544)	\$ (7,968,776)

Management's Discussion and Analysis For the Year Ended December 31, 2019

Capital assets are used in the operations of the District. These are land, improvements, buildings, apparatus, vehicles and equipment. The District uses these capital assets to provide services to residents, consequently, these assets are not available for future spending.

An investment of \$6,111,513 in land improvements, buildings, apparatus, vehicles and equipment, to provide the services represents 30.61% of the District's total assets and deferred outflows.

Statement of Activities A comparison of the statement of activities for the last two fiscal years is shown below

Statement of Activities *Governmental Activities*

	2019	2018
Revenues

(See Independent Auditor's Report) MD&A 5

Management's Discussion and Analysis For the Year Ended December 31, 2019

Governmental Activities

Governmental activities decreased the District's net position by \$(279,768). Key elements contributing to this net change are summarized below.

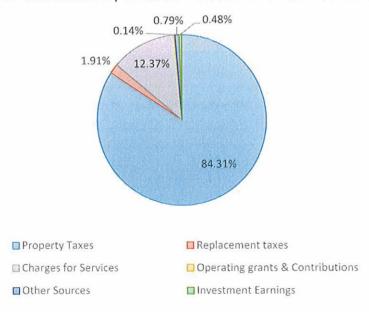

Total Revenues increased 4.56% to \$12,162,289 in 2019 from \$11,631,108 the previous year. The increase is attributed to increases in property tax, charges for services and miscellaneous income. Even though revenues increased overall, budgeted revenues fell short of expectations by 2.84% in the General Fund and increased by 1.69% in the Ambulance Fund.

Service revenues of \$1,505,156 accounted for 12.37% of total revenues. Charges for services increased by \$111,536 over the prior fiscal year. The change was primarily due to an increase in ambulance transport charges.

General revenues (property taxes) of \$10,253,770 accounted for 84.31% of total revenue. The largest general revenue, property taxes, increased by \$362,327 over the prior fiscal year. Other general revenues, which include replacement taxes, operating grants and contributions, investment earnings and other miscellaneous revenues accounted for 3.31% of total revenues.

Total Expenses increased by \$918,843, 7.97% over prior fiscal year. This increase is primarily the result of the financial information described in the reconciliation of the District's governmental activities.

Governmental Activities continued

Financial Analysis of the District's Funds

Governmental Funds

Governmental funds are reported in the fund statements with a short-term inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$2,631,618. Of this year-end total, the general and ambulance funds reported a fund balance of \$1,466,469. The remaining \$1,165,149 is restricted, assigned or unrestricted.

Unassigned fund balance is the residual classification for the General and Tort Fund. This is fund balance not reported in any other classification and is available and expendable for any General and Tort Fund purpose. The unassigned fund balance available for funding future operational needs, totaled (\$392,997). Unassigned fund balance represents (-3.32%) of total governmental fund expenditures, while total fund balance represents 22.22% of that same amount.

Restricted fund balance, which is the portion of fund balance that is subject to constraints imposed by external parties or enabling legislation. Restricted fund balance totaled \$3,024,615 (25.54%). This balance has been restricted as follows: \$1,604,808 to ambulance fund, and \$1,329,060 for capital outlay, and \$90,747 for payroll taxes, audit cost and fire department related purposes under the control of the Foreign Fire Insurance Board.

The total ending fund balance of governmental funds shows an increase of \$318,499 from the prior fiscal year. This increase is the result of the continued efforts by the Administration to reduce spending.

Management's Discussion and Analysis For the Year Ended December 31, 2019

Governmental Funds continued

The following is a summary of changes in fund balances for the year ended December 31, 2019:

Governmental Funds	Fund Balance Increase Dec. 31, 2018 (Decrease)		Fund Balance Dec. 31, 2019
General Fund Ambulance Fund Tort Liability Fund Capital Projects Fund Other Governmental Funds	\$ (29,739) 1,406,037 (191,720) 1,051,395 77,146	\$ (108,600) 198,771 (62,938) 277,665 13,601	\$ (138,339) 1,604,808 (254,658) 1,329,060 90,747
	\$ 2,313,119	<u>\$ 318,499</u>	<u>\$ 2,631,618</u>

Major Governmental Funds

The District reports the General Fund and Ambulance Fund, as the main operating funds of the District. More detailed information on the budgetary highlights can be found beginning on page 56 of the financial statements

The General Fund is the chief operating fund of the District for fire and rescue related costs. The General Fund fund balance as of December 31, 2019 was \$(138,339) a decrease of \$(108,600) from the prior year. The decrease is mainly due to an increase in expenses and increase in revenue from prior year.

The Ambulance Fund is the chief operating funds of the District for emergency medical services. The Ambulance Fund fund balance as of December 31, 2019 was \$1,604,808 an increase of \$198,771 from the prior year. The increase is mainly due to an increase in overall revenues from prior year.

Governmental Funds Budgetary Highlights

During the 2019 Budget year, the District did not revise the annual operating budget. The General and Ambulance funds are reported as major funds and account for the routine operations of the District.

Not including pension property taxes indirectly paid to the General Fund, actual revenues in the General and Ambulance funds were \$9,166,276, which fell short of budget estimates by \$621,852 or 3.46%, due to a shortfall in property tax collections. Additionally, actual expenditures were \$8,162,628 under performed budget estimates by \$176,627 or 2.12% due to compensation and salary cost being less than anticipated and the continued efforts by the Administration to reduce spending.

(See Independent Auditor's Report)

Management's Discussion and Analysis For the Year Ended December 31, 2019

Capital Assets and Debt Administration

Capital Assets

The District's investment in capital assets for its governmental activities as of December 31, 2019 amounts to \$6,111,513 (net of accumulated depreciation). This investment in capital assets includes land, improvements, buildings, apparatus, vehicles and equipment. Net capital assets decreased by \$(184,286) mostly due to depreciation.

Governmental Activities

	2019	2018
Land	300,000	300,000
Buildings and building improvements	3,445,886	3,589,306
Apparatus and Vehicles	2,063,045	2,042,534
Equipment	302,582	363,959
Totals	6,111,513	6,295,799

Additional information on the District's capital assets can be found in the notes to financial statements on page 22.

Long-Term Debt

At the end of the current fiscal year, the District had total notes payable outstanding of \$0.

Fire Protection Notes designated as "Build America Bonds" were issued in the amount of \$1,340,000 in 2010 for the purchase of an Engine, Ambulance and remodeling of Station No. 1. Interest payments on these notes are due July 1 and January 1, beginning July 1, 2011. The first principal payment was due on January 1, 2012, and continues each January 1 until 2020. The final payment due January 1, 2020 was made during December 2019.

A lease/purchase agreement was entered into with JPMorgan Chase Bank, NA in the amount of \$1,000,000 to acquire a ladder truck. Interest and principal payments are due semi-annually on January 1 and July 1, beginning January 1, 2016 through July 1, 2019. The first payment was made during December 2015. The final payment was made during July 2019.

(See Independent Auditor's Report) MD&A 9

Management's Discussion and Analysis For the Year Ended December 31, 2019

Long Term Debt continued

Following is a summary of the long-term liabilities outstanding:

Governmental Activities

	2019	2018
Lease/purchase agreement	0	128,328
Notes Payable	0	225,000
Compensated Absences	3,177,520	3,020,371
Net Pension liabilities	11,409,713	13,444,080
Net postemployment benefits obligations	1,324,145	1,186,524
Total	15,911,378	18,004,303

Total long-term liabilities decreased by \$2,092,925, during the current fiscal year. Decreases to liabilities included increases to the Firefighters' Pension and IMRF Plan net pension liability \$2,034,367. Additionally, long-term debt had a reduction of \$353,328.

Bonded debt issuances are subject to a legal limitation based on 5.75% of assessed valuation of real and personal property. The District's available debt margin at December 31, 2019 was \$74,439,281. Moody's Investors Services have rated the District A2. Additional information on long-term debt obligations can be found in the notes to financial statements on pages 23 - 24.

Economic Factors in Next Year's Budget and Rates

The District is approximately 60% residential and 40% commercial. The primary revenue source is property taxes, representing approximately 88% of total revenue. The District continues to experience an eroding tax rate imposed by the Property Tax Extension Limitation Law (PTELL), which, in general, limits the amount of taxes to be extended to the lesser of 5% or the percentage increase in the consumer price index for the year preceding the levy. Any property tax freeze would have a significant impact on service levels given it is the District's primary revenue source.

Budgeted revenue for 2020 is \$15,633,600. Property taxes are assumed to increase for existing property by the Consumer Price Index of 2.0% and the addition of new construction property to the tax rolls. Other sources of budgeted revenue include fees for ambulance service and other miscellaneous sources.

Budgeted expenses for 2020 are \$12,555,637. Expenditures include salaries and benefits to maintain existing staffing levels, facility expenses to operate and maintain existing buildings maintenance expenses to maintain existing apparatus, new apparatus, debt payments and other miscellaneous expenditures.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Lemont Fire Protection District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to governmental units (hereinafter referred to as generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and reporting principles. The following is a summary of the significant accounting policies of the District.

a. Reporting Entity

The District provides fire, rescue, emergency medical services, and general administrative services.

As required by GAAP, these financial statements present the District and any component units, entities for which the District is considered to be financially accountable. At December 31, 2019, there were no other entities that would be considered a component unit of the District. Also, the District is not considered a component unit of any other governmental entity.

Firefighters' Pension Employees Retirement System

The District's sworn firefighters participate in the Firefighters' Pension Employees Retirement System (FPERS). FPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the District's President, one elected pension beneficiary, and two elected active firefighters constitute the pension board. The participants are required to contribute a percentage of salary as established by state statute and the District is obligated to fund all remaining FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the District is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it is legally separate from the District, the FPERS is reported as if it were part of the District because its sole purpose is to provide retirement benefits for the District's sworn firefighters. The FPERS is reported as a pension trust fund.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into the following categories: governmental and fiduciary.

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement restricted or committed revenue sources (special revenue funds), the acquisition or construction of general capital assets (capital projects funds) and the servicing of general long-term debt (debt service funds). The general fund is used to account for all activities of the government not accounted for in some other fund.

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the entity. When these assets are held under the terms of a formal trust agreement, a pension trust fund is used.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support; however, there are no business activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and shared revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

c. Government-Wide and Fund Financial Statements (Cont.)

Separate financial statements are provided for the governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

General Fund is the District's primary operating fund - accounts for the direct costs of fire suppression and an allocation of administration costs that are not required to be accounted for in other funds. Major resources are property taxes.

Ambulance Fund - accounts for the direct costs of emergency medical services and an allocation of administration costs. Major resources are property taxes and ambulance fees.

Tort Liability Fund - accounts for insurance costs, risk care management costs, and property taxes levied. Major resources are property taxes.

Capital Projects Fund – accounts for the financial resources used for the construction of major capital facilities and the purchase or replacement of equipment.

The District also reports the following nonmajor governmental funds:

Social Security and IMRF Fund - accounts for social security and IMRF taxes and property taxes levied.

Audit Fund - accounts for audit fees and property taxes levied.

Foreign Fire Insurance Fund - accounts for foreign fire insurance taxes received and distributions to the Foreign Fire Insurance Board.

Debt Service Fund – accounts for the resources acquired and payment of principal and interest on debt.

Additionally, the District reports the Firefighters' Pension Fund as a fiduciary fund.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

d. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements and the fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period (60 days) or soon enough thereafter to be used to pay liabilities of the current period. The District recognizes property taxes when they become both measurable and available in the year intended to finance. Expenditures are recorded when the related fund liability incurred. Those revenues susceptible to accrual are property taxes and interest revenue.

The District reports unearned/deferred revenue on its financial statements. Unearned/deferred revenues arise when a potential revenue does not meet both the measurable and available or earned criteria for recognition in the current period. Unearned/deferred revenues also arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the District has a legal claim to the resources, the liability for unearned/deferred revenue is removed from the financial statements and revenue is recognized.

e. Cash and Investments

Cash and cash equivalents include all demand and savings accounts.

Investments of the District's operating funds with maturities of one year or more from the date of purchase, other than nonnegotiable certificates of deposit, are stated at fair value based on quoted market prices. Investments with maturities of one year or less from the date of purchase and nonnegotiable certificates of deposit are stated at cost or amortized cost. All other investments which do not consider market rates are stated at cost. All investments of the fiduciary fund are reported at fair value.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

f. Receivables and Payables

Interfund

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of the interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

g. Uncollectibles

Ambulance receivables are reported net of an allowance for uncollectibles of \$433,248.

h. Capital Assets

Capital assets are recorded as expenditures at the time of purchase. Capital assets, which include property, plant, and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are reported at acquisition value.

The costs of normal maintenance and repairs that do not add to the value or service capacity of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
D 11.1	25.50
Buildings	25-50
Appartus	10-25
Vehicles	8-15
Equipment	2-20

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

i. Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused sick pay and vacation benefits. Upon retirement, sick pay is paid out at a rate of 60% of sick pay accumulated, not to exceed 1800 hours. Vacation pay is paid out based upon length of service with no more than three day's worth being accrued. All sick pay and vacation benefits are accrued and reported in the government-wide financial statements. In the fund financial statements, sick pay and vacation benefits are reported as a fund liability for amounts owed to terminated or retired employees, if any.

j. Long-Term Obligations

In the government-wide financial statements, general long-term debt and other long-term obligations are reported as liabilities in the statement of net position.

k. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources.

This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

1. Fund Balance/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not spendable in form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. None of the restricted fund balance result from enabling legislation adopted by the District. Committed fund balance is constrained by formal actions of the District's Board of Trustees, which is considered the District's highest level of decision-making authority. Formal actions include resolutions and ordinances approved by the Board. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Fire Chief by the District's Board of Trustees. Any residual fund balance is reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the District considers committed funds to be expended first followed by assigned and then unassigned funds.

The District has not established fund balance reserve policies for any of its governmental funds.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net position has not been restricted by enabling legislation adopted by the District. Investment in capital assets represents the book value of capital assets less any long-term debt principal outstanding issued to construct capital assets.

m. Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

2. PROPERTY TAXES AND PERSONAL PROPERTY REPLACEMENT TAXES

Property taxes for 2019 attach as an enforceable lien on January 1, 2019, on property values assessed as of the same date. Taxes are levied by December of the fiscal year (by passage of a Tax Levy Ordinance). The District has a statutory tax rate limit in various operating funds subject to change only by approval of the voters of the District. Also, the District is subject to the Property Tax Extension Limitation Act, which in general limits the amount of taxes to the lesser of 5% or the percentage increase in the consumer price index for the year preceding the levy. Certain bond issue levies and referendum increases are exempt from this limitation.

Tax bills are prepared by the counties and issued on or about February 1, 2020 and August 1, 2020 (Cook County), and June 1, 2020 and September 1, 2020 (DuPage and Will Counties); and are payable in two installments, on or about March 1, 2020 (Cook County) and September 1, 2020 (DuPage and Will Counties). The counties collect such taxes and remit them periodically. Property taxes for the 2018 levy were received and recognized as revenue in fiscal 2019.

Personal property replacement taxes represent an additional State of Illinois income tax on corporations (certain utilities), trusts, partnerships, and S corporations; and a new tax on the invested capital of public utilities providing gas, communications, electrical and waste services.

Revenues are collected by the State of Illinois under the replacement tax and are allocated and paid by the State eight times a year. The replacement tax provides that monies received should be first applied toward payment of the proportionate share of the pension or retirement obligations which were previously levied on personal property. Remaining allocations are made at the discretion of the Board of Trustees.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

3. DEPOSITS AND INVESTMENTS

a. District Investments

The District's investment policy authorizes the District to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services and Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value).

The District's investment policy does limit its deposits to financial institutions that are members of the FDIC system and are capable of posting collateral for amounts in excess of FDIC insurance. Additionally, the District will not invest in any institution in which the District's funds on deposit are in excess of 75% of the institution's capital stock and surplus.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity and rate of return.

The District maintains a cash and investment pool that is available for use by all funds, except the pension trust fund. In addition, investments are separately held by several of the District's funds. The deposits and investments of the pension trust funds are held separately from those of other funds.

In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market.

The District limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in securities issued by United States governmental agencies. Illinois Funds is rated AAA.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

3. DEPOSITS AND INVESTMENTS (Cont.)

a. District Investments (Cont.)

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Funds' share price, the price for which the investment could be sold.

b. Interest Rate Risk

The following table presents the investments and maturities of the District's debt securities as of December 31, 2019:

Investment Maturities in Years									
		Fair	Ι	ess than				Me	ore than
Investment Type		Value	-	1		1 - 5	6 - 10		10
Negotiable CDs	\$	896,177	\$	50,153	\$	846,024	\$ -	\$	-
U.S. Treasuries		201,141		100,031		101,110	_		-
U.S. Agencies		150,439		100,022		50,417			
Total	\$	1,247,757		250,206	\$	997,551	\$ 	\$	
Investments not subject to interest rate risk									
Money market mutual funds		303,032							
Total	<u>\$</u>	1,550,789							

In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and, Level 3 inputs are significant unobservable inputs. The above negogitable CDs, U.S. Treasuries, and U.S. Agencies are valued using Level 2 inputs.

General Ambulance Capital projects	\$	- - 915,000	\$	350,000 565,000
onposit projects		915,000	<u>\$</u>	915,000

The transfers will not be repaid.

8. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; employee health, and natural disasters. All risks are covered by commercial insurance purchased from independent third parties. There have been no significant reductions in insurance coverage from coverage in prior years. Settlement amounts have not exceeded insurance coverage for the current year or the three years prior.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

9. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described in the following note, the District provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual and union contract. No assets are accumulated in a trust. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the District's governmental activities.

b. Benefits Provided

The District provides postemployment health care benefits to its retirees. To be eligible for benefits, an employee must qualify for retirement under one of the District's two retirement plans. A retired employee who wishes to continue coverage shall bear 100% of the premium rate currently in effect for active employees for this coverage. Certain eligible retirees are also able to subsidize a portion of their costs for the premium rate by utilizing unused sick leave or by participation in a Voluntary Employee Benefit Association until age 65. Upon a retiree reaching age 65 years of age, Medicare becomes the primary insurer and the District's medical coverages lapse.

c. Membership

At December 31, 2019 (the latest information available), membership consisted of:

Inactive fund members or beneficiaries currently receiving benefits payments	7
Inactive fund members entitled to but not yet receiving benefits payments	-
Active fund members	59
Total	66

h. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2019, the District recognized OPEB expense of \$151,998.

10. EMPLOYEE RETIREMENT SYSTEMS

The District maintains a single-employer, defined benefit pension plan (Firefighters' Pension Fund) which covers its qualified sworn employees and participates in the statewide Illinois Municipal Retirement Fund, an agent multiple-employer public employee pension plan which covers substantially all of the remaining qualified district employees.

Illinois Municipal Retirement Fund

The District's defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments, and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole but not by individual employer. That report may be obtained online at www.imrf.org.

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The Plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

10. EMPLOYEE RETIREMENT SYSTEMS (Cont.) Illinois Municipal Retirement Fund (Cont.) Plan Membership At December 31, 2019, IMRF membership consisted of: Plan members and beneficiaries currently receiving benefits Retirees and beneficiaries Inactive, nonretired plan members Active plan members 8

Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduce benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 - 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 - 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and other requirements are established by state statute.

Contributions

Participating members are required to contribute 4.5% of their annual covered salary to IMRF. The District is required to contribute the remaining amount necessary to fund IMRF as specified by statute.

December 31, 2019

10. EMPLOYEE RETIREMENT SYSTEMS (Cont.)

Illinois Municipal Retirement Fund (Cont.)

Net Pension Liability

Actuarial Assumptions

The District's net pension liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions, including:

Inflation	2.50%
Salary increases	3.35-14.25%
Interest	7.25%
Cost of living adjustments	3.25%
Asset valuation method	Market

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate, and that the District contributions will be made at rates equal to the difference between actuarial determined contribution rates and the member rate. Based upon those assumptions, the fiduciary net position was projected not to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments of 7.25% was blended with the index rate of 2.75% for tax-exempt general obligation municipal bonds rated AA or better at December 31, 2019, to arrive at a discount rate of 7.25% used to determine the total pension liability.

Firefighters' Pension Plan (Cont.)

Benefits Provided

The Firefighters' Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held at the date of retirement. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a covered employee who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3.00% of the original pension and 3.00% compounded annually thereafter.

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the firefighter during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Firefighters' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3.00% compounded. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e. ½% for each month under 55). The monthly benefit of a Tier 2 firefighter shall be increased annually at age 60 on the January 1st after the firefighter retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3.00% or ½ of the change in the Consumer Price Index for the proceeding calendar year.

Firefighters' Pension Plan (Cont.)

Contributions

Covered employees are required to contribute 9.455% of their base salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The District is required to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. Effective January 1, 2011, the District has until the year 2040 to fund 90% of the past services costs for the Firefighters' Pension Plan.

Investment Policy

The Firefighters' Pension Fund's investment policy authorizes the Firefighters' Pension Fund to invest in all investments allowed by Illinois Compiled Statutes. These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, equities, equity mutual fund, state and local government bonds and short-term commercial paper rated within the three highest classifications by at least two standard rating services and Illinois Funds. The Firefighters' Pension Fund's investment policy does limit its deposits to financial institutions that are members of the FDIC system and are capable of posting collateral for amounts in excess of FDIC insurance. Additionally, the Firefighters' Pension Fund will not invest in any institution in which the Firefighters' Pension Fund's investments are in excess of 75% of the institutions capital stock and surplus.

It is the policy of the Firefighters' Pension Fund to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Firefighters' Pension Fund and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity and rate of return.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

10. EMPLOYEE RETIREMENT SYSTEMS (Cont.)

Firefighters' Pension Plan (Cont.)

Investment Policy (Cont.)

The Fund's investment policy in accordance with ILCS establishes the following target allocations across asset classes:

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed Income	45.00%	1.30%
Equities		
U.S. Large Cap	38.50%	6.10%
U.S. Small Cap	11.00%	7.90%
International	5.50%	6.80%

ILCS limit the Fund's investments in equities, mutual funds, and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultants, in which best-estimate ranges of expected future real rates of return (net of pension plan investment expenses and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimate or arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2019 are listed in the table above.

Concentrations

Concentration of credit risk is the risk of loss attributed to the magnitude of the Fund's investment in a single issuer. The Fund does not have a formal written policy with regard to concentration credit risk for investments. At December 31, 2019 the Fund did not have over 5% of fiduciary net position available for benefits (other than investments issued or explicitly guaranteed by the US government and investments in mutual funds, external investment pools, and other pooled investments). Agency investments represent a large portion of the portfolio; however the investments are diversified by maturity date and are backed by the issuing organization. Although unlike Treasuries, agency securities do not have the "full faith and credit" backing of the U.S. Government. They are considered to have a moral obligation of implicit backing and are supported by Treasury lines of credit and increasingly stringent federal regulation.

The following table presents equity mutual funds:

Equity Mutual Funds		Total
	Φ.	1.651.020
Vanguard 500 Index Admiral Fund	\$	4,651,832

10. EMPLOYEE RETIREMENT SYSTEMS (Cont.)

Firefighters' Pension Plan (Cont.)

Rate of Return

For the year ended December 31, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 17.04%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Fund's deposits may not be returned to it. The Fund's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount equal to the fair market value of the funds secured. The Fund shall have a perfected security interest in securities pledged as collateral which shall be free of any claims to the Agency Bonds, issued in the U.S. domestic bond market.

Inherent Rate of Risk

The following table presents the investments and maturities of the Fund's debt Investments:

		Investment Maturities in Years				
	Fair	Less than			More than	
Investment Type	Value	1	1 - 5	6 - 10	10

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

10. EMPLOYEE RETIREMENT SYSTEMS (Cont.)

Firefighters' Pension Plan (Cont.)

Inherent Rate of Risk (Cont.)

In accordance with its investment policy, the Firefighters' Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and, Level 3 inputs are significant unobservable inputs. The above U.S. Treasuries and equity mutual funds are valued using Level 1 inputs. U.S. Agencies, state and local government obligations, and corporate debt securites are valued using Level 2 inputs.

Credit Risk

The investments in the securities of state and local obligations were all rated AA or higher; U.S. Government Agencies were all rated AAA and corporate bonds were all rated BBB or higher by Standard & Poor's or by Moody's Investors Services, or were small issues that were unrated. Unrated (N/R) investments are listed in the following table:

	Par	Interest	Maturity
Investment	Value	Rate	Date
Williamson Jacksonville Counties, Illinois	75,000	3.0000%	12.01.2022
Tennessee Valley Authority Strip	100,000	0.0000%	09.15.2025
Federal Home Loan Bank	150,000	2.6000%	03.04.2022
Federal National Mortgage Association	3,286	4.0000%	10.01.2040
Federal National Mortgage Association	6,379	4.5000%	11.01.2040

Firefighters' Pension Plan (Cont.)

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Fund requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the Fund's agent separate from where the investment was purchased in the Fund's name. Money market mutual funds and mutual funds are not subject to custodial credit risk. The Fund however is exposed to custodial credit risk as the broker also serves as the custodian.

Net Pension Liability

The components of the net pension liability as of December 31, 2019 were as follows:

Total pension liability	\$	47,372,277
Plan fiduciary net position		35,807,760
Net pension liability	<u>\$</u>	11,564,517
Plan fiduciary net position as a percentage of the		
total pension liability		75.59 %

See the schedule of changes in net pension liability and related ratios in the required supplementary information for additional information related to the funded status of the Fund.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended December 31, 2019, the District recognized pension expense of \$2,063,275. At December 31, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to Firefighters' Pension from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference between expected and actual	.	100.510	*	25.126
experience	\$	190,542	\$	35,136
Changes in assumptions		564,161		717,520
Net difference between projected and actual				
earnings on pension plan investments				981,194
Total	<u>\$</u>	754,703	<u>\$</u>	1,733,850

Amounts reported as deferred outflows of resources and deferred inflows of resources related to Firefighters' Pension will be recognized in pension expense as follows:

Period Ended December 31	Net Deferred Inflows of Resources
2020	\$ (200,892)
2021	(244,736)
2022	14,782

Thereafter	100,087
Total	(979,147)

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

10. EMPLOYEE RETIREMENT SYSTEMS (Cont.)

Firefighters' Pension Plan (Cont.)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows to determine the discount rate assumed that the member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate.

Based upon those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the District calculated using the discount rate of 7.00% as well as what the District's net pension liability would have been if it was calculated using a discount rate that is 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate.

		Current	
	1% Decrease	Discount Rate	1% Increase
	6.00%	7.00%	8.00%
Net pension liability	\$ 19,806,096	\$ 11,564,517	\$ 4,971,482

11. CONTINGENCIES

The District has two cases filed for workers' compensation with the Industrial Commission of Illinois. The District has adequate insurance with regard to both claims and does not expect any liability in excess of the insurance coverage. With regard to other pending matters, the eventual outcome and the related liability, if any, is not determinable at this time. Accordingly, no provision has been made in the accompanying financial statements for settlement costs.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2019

11. SUBSEQUENT EVENTS

Subsequent events have been evaluated through June 26, 2020, which is the date the financial statements were available to be issued.

The COVID-19 outbreak in the United States has caused significant business disruption through mandated and voluntary closings of numerous businesses and other entities throughout the United States and globally. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the global pandemic and its impact on economic conditions and financial markets. As a result, investment market values have significantly declined subsequent to December 31, 2019. The duration of the pandemic cannot be reasonably estimated at this time and no adjustments have been made to the financial statements as a result of this uncertainty.

Other than the matter described above, management is not aware of any additional subsequent events that would require recognition or disclosure in the financial statements.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION December 31, 2019

APPROPRIATIONS

Appropriated amounts used for comparison in this report are obtained from the Annual Combined Budget and Appropriation Ordinance for the District. The appropriated amounts included in the financial statements are the final adopted appropriations. All funds of the District are appropriated for except the Foreign Fire Fund and the Debt Service Fund. Appropriations lapse at year end. No amendments or supplemental appropriations were adopted during the current fiscal year.

The District's procedures in establishing budgetary data are as follows:

- 1. Within the last three months of its previous fiscal year, the Board of Trustees prepares the proposed combined budget and appropriation ordinance for the fiscal year commencing January 1. The combined budget and appropriation ordinance includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to November 30, the budget is legally enacted through passage of an appropriations ordinance.
- 4. Formal budgetary integration is employed as a management control device during the year.

Expenditures may not legally exceed budgeted appropriations at the fund level.

STATISTICAL SECTION (UNAUDITED)

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information displays about the District's overall financial health.

	<u>Pages</u>
Financial Trends	73 - 78
These schedules contain trend information to help the reader understand how the District's financial performance and well-being has changed over time.	
Revenue Capacity	79 - 84
These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	
Debt Capacity	85 - 87
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	
Demographic and Economic Information	88 - 89
These schedules offers demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Information	90 - 92
These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the district provides and the activities it performs	

FINANCIAL TRENDS INFORMATION

<u>Government-Wide Net Position by Component</u> – Presents net position of the governmental activities and business-type activities by the three individual components of net position for each of the last ten fiscal years.

<u>Government-Wide Changes in Net Position</u> – Presents expenses, program revenues, and net expense of governmental activities and business-type activities for each of the last ten fiscal years.

<u>Fund Balances of Governmental Funds</u> – Presents information on the fund balances of the General Fund and the aggregate of all other governmental funds for each of the last ten fiscal years.

<u>Summary of Changes in Total Governmental Fund Balances with Beginning and Ending Total Fund Balances</u> – Presents a summary of information on the changes in fund balances for total governmental funds for each of the last ten fiscal years.

<u>Governmental Funds Revenues</u> – Presents information on the revenue for governmental funds for each of the last ten fiscal years.

<u>Governmental Funds Expenditures</u> – Presents information on the revenue for governmental funds for each of the last ten fiscal years, including the ratio of debt service expenditures to noncapital expenditures.

Cook County Clerk, Dupage County Clerk, Will County Clerk

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Lemont Fire Protection District. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

⁽²⁾ Includes original principal amounts of outstanding Capital Appreciation Bonds.

⁽³⁾ Includes bonds with the IEPA
